TPS II EURO VP 440003

The TPS II EURO speedometer test bench is perfect for assessing deviations in the speedometer speed of cars and trucks of up to 13.0 t. The speedometer test can be performed with up to ten freely selectable test points. In addition, the distance measurement can be performed with up to ten freely selectable test points. With the hydraulic lifting bar as an exit aid for the drive axle, a problem-free test sequence is always guaranteed.

PRODUCT DETAILS/ACCESSORIES

Description:

- Ideal for assessing the variation in Tachometer speed in cars and trucks
- Tachometer testing with up to ten freely selectable test points
